

# G04 - Bank Payment Proof Mapping Memo

Artifact: G04-bank-payment-proof | Date: 2026-07-02 | Scope: bank evidence candidate and payment mapping control

Gate action: bank proof is handled as a controlled candidate. Finance signature converts it into accepted proof or keeps it as an open exception without blocking the next T-503 step.

## Bank proof handling

| Item                              | Evidence                                                   | Treatment                                                                   |
|-----------------------------------|------------------------------------------------------------|-----------------------------------------------------------------------------|
| Bank proof candidate              | IZVOD OD SMETKA PROCREDIT BANKA.pdf                        | Included as source evidence, but exact mapping must be approved by finance. |
| Invoice references                | 0307/03/2026 and 0307/04/2026 candidates                   | Finance must map bank transaction(s) to the correct invoice/entity.         |
| Payment status in continuity gate | Payment not silently marked final if mapping is incomplete | Continue under EXC-002; do not mark final paid without finance signature.   |

## Finance decision options

Finance must select one: ☐ Matched to invoice 0307/03/2026; ☐ Matched to invoice 0307/04/2026; ☐ Matched to another BUTEL invoice; ☐ Not matched - remain open exception.

## No-block rule

If finance signs this memo, T-503 may continue for review even if final payment status remains pending. Final PAID status is not allowed until mapping is complete.
